Annual Report

OF THE

Town of Holderness

For the Year Ending
February 15,
1914

NEWS JOB PRINT, MEREDITH, N. H.

NEW HAMPSHIRE
STATE LIBRARY

Annual Report

OF THE

Town of Holderness

For the Year Ending
February 15,
1914

NEWS JOB PRINT, MEREDITH, N. H.

WARRANT.

State of New Hampshire.

To the inhabitants of the Town of Holderness, in the County of Grafton, in said State, qualified to vote in Town Affairs.

You are hereby notified to meet at Town House in said Holderness, on Tuesday, the Tenth day of March next at nine of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.
2. To raise such sums of money as may be necessary to defray town charges for the ensuing year, and make appropriation of the same.
3. To raise such sums of money as may be necessary for repairing Highways and Bridges for ensuing year, and make appropriations for the same.
4. To see what sum of money the town will vote to raise or appropriate for permanent improvements of Highways for ensuing year.
5. To see what sum of money the town will vote to raise and appropriate for the permanent improvements of main highways as provided by Chapter 155, Session Laws of 1909.

TOWN OF HOLDERNESS

6. To see what sum of money the town will vote to raise or appropriate to be laid out on highway leading from Squam Bridge to Sandwich to be laid out under supervision of Squam Lake Improvement Association provided said association raise a like amount.

7. To see what sum of money the town will vote to raise for the support of Library, for ensuing year.

8 To see what sum of money, the town will vote to raise to Decorate Soldiers and Sailors graves for the ensuing year.

9. To see if the town will vote to instruct the Selectmen to hire money for any purpose relating to town affairs if necessary for ensuing year.

10. To see what sum of money the town will vote to raise for support of Cemetery for ensuing year.

11. To see what sum of money the town will vote to raise and appropriate for the control of Brown Tail and Gypsy moths for ensuing year

12. To see if the town will vote to pay Horace T. Greenleaf, fourteen dollars for damage to Automobile.

13. To see what action the town will take in regard to paying for use of watering troughs.

14. To see if the town will vote to purchase a Monarch Steam Roller on terms as stated in Lease and raise and appropriate money for the same

Given under our hands and seal this nineteenth day of February, in the year of our Lord nineteen hundred fourteen

WARRANT.

State of New Hampshire.

To the inhabitants of the School District in the Town of Holderness qualified to vote in District Affairs.

You are hereby notified to meet at the Town House in said district on the tenth day of March, 1914 at two o'clock in the afternoon to act upon the following subjects.

1. To choose a moderator for the coming year.
2. To choose a clerk for the ensuing year.
3. To choose a member of the school board for the ensuing three years.
4. To choose a treasurer for the ensuing year.
5. To hear the reports of agents, auditors, committees, or officers chosen, and pass any vote relating thereto.
6. To choose agents, auditors and committees in relation to any subject embraced in this warrant.
7. To see how much money the district will raise and appropriate in addition to that required by law for High School tuition, repairing school houses and providing fuel, furniture, books, maps, charts, apparatus and conveniences for schools and school houses, school supplies, flags and appurtenances and for the support of schools.
8. To see how much money the district will raise and appropriate for the salaries of district officers.

TOWN OF HOLDERNESS

9. To see if the district will vote to entirely dispense with the services of a superintendent of schools.

10. To see if the district will vote to adopt medical inspection agreeably to a law enacted at the last session of the legislature relative to communicable diseases in schools and examinations of pupils.

11. To see if the district will vote to raise the sum of \$105.00 for the service of the district officers from Feb. 15, 1913 to Feb. 15, 1914.

Given under our hands at said Holderness this sixteenth day of February, Nineteen Hundred and Fourteen.

TOWN OF HOLDERNESS

Report of School Board

The following report brings to a close another school year and it is our pleasure to submit to the public the history of the school life of Holderness for the past year, and note marked changes we have had a progressive teaching force and we believe the teachers have all exercised their best diligence for the interests of the schools, and at this time we wish to express our appreciation of the excellent work done by the teachers.

There has been an entire absence of friction in the school work which so often mars and impairs progress, and for the most part harmony has prevailed in the schools, and, as we believe with good results, while some of our teachers have taught many terms in Holderness we regret so many changes were necessary, permanent teachers come to know the peculiar needs of the people and acquire skill in their work while frequent changes most invariably impair a school's progress for a time at least. At the close of the Spring term three pupils were graduated from the Grammar Schools and as education is the pathway to higher life and is growing more instead of less valuable with the lapse of time we would urge the parents to send their children to High School. Let them have the companionship and broader mode of study they find there, which is so essen-

TOWN OF HOLDERNESS

tially necessary to cope with the onward rush of civilization, and to meet the demands of the great chain of industries, new enterprises, and developements, which is being forged. The general work of the High School is such that they will be the better fitted for the walks of life and the school will certainly do much to enlighten the home. Nothing will build up a school so well as the deserved good word of those who have received its benefits. Every means should be taken to encourage and help the teachers. Parents and friends of the pupils are cordially invited to visit and inspect the work of the schools.

In Schools where the grades are undivided and where there are six to eight grades, teachers find it a burdensome task to distribute justice equally to each grade and cannot give undue attention to one study to the neglect of others and at the same time obtain good results. We believe in many cases pupils have been pushed too rapidly through the the text book work to the detriment of pupils, the completion of the book is not the sole end in view. Thoroughness is brought about by constant review.

Owing to lack of pupils at the True school, the old Prescott schoolhouse, which has stood a landmark for many years on the road leading from Squam bridge to Sandwich was repaired at a small expense and reopened for the Fall term with eight pupils in attendance two of this number being transported from the True district.

Transportation problems are perplexing. We have endeavored to solve them, keeping in mind both the financial interest of the town and the just claims of the families living remote from school privileges.

TOWN OF HOLDERNESS

It was an innovation to give the scholars a recess during the holidays for one week. All expressed themselves as pleased with the new arrangement and so far as we have heard the parents speak of the matter, they have likewise approved of the change, believing that the minds of the young people were so filled with the events of the season that during Christmas week it was almost a waste of time to try to do school work.

Increase in Expenditures

The increase in expenditures are almost wholly due to increase in teachers salaries and the extending length of school year to thirty two weeks. The superintendent recommended Normal Graduates, in part this project was carried into effect resulting as follows, one teacher holding a state certificate and three Normal graduates were employed largely increasing the expenditures of teachers salaries over what we were paying High school graduates with no rebate from the state ; for Holderness cannot obtain state aid hereafter unless the district complies with the following conditions which are : First in order to obtain state aid the district must raise and appropriate a total of four thousand two hundred and twenty four dollars to be used for school purposes only, or three dollars and forty cents on a thousand dollars of equalized valuation; second to draw back from the state two dollars per week each for approved teachers, the equalized valuation per pupil of average attendance shall be \$7000.00 or less. The equalized valuation for the Town of Holderness per pupil of average attendance for the last school year was

TOWN OF HOLDERNESS

ten thousand, nine hundred and thirty seven dollars.

It is not necessarily important that teachers should have Normal training to teach the Grammar schools of Holderness. In many cases teachers without Normal training have proved themselves superior to many Normal graduates. Desirable teachers are those who have talent and ability to impart knowledge to others, to keep good order in school, to get the good will of the pupils. We have teachers who have taught many terms in Holderness who have fully covered the above requirements as has been fully demonstrated.

Appropriations

Amount required by law \$ 1,942.50 to continue with Normal graduates as teachers, and a school year of thirty two weeks we recommend \$1,200 00 under article seven of the warrant in addition to amount required by law.

It was not the intention of the school board to have article 8 of the warrant included in article 7. The districts indebtedness is due to the confusion of the above named articles and increase of teachers salaries through employing Normal graduates.

In mark contrast to even a half century ago the field of education has broadened to that extent and offers such inducements and opportunities that it makes it possible for all to secure an education who desire to enter the field

It is our belief that the progress in the efficiency of our schools certainly stands at par compared with other rural schools, that parents and teachers are working together better each year, that unreasonable fault finding is disap-

TOWN OF HOLDERNESS

pearing, and that helpful criticism is taking its place.

In closing we wish to thank the public for the cooperation and support which they have given us during the year.

Respectfully submitted.

Wilbur L. White	}	School

Elmira C. Evans		Board

TOWN OF HOLDERNESS

SUPERINTENDENT'S REPORT.

To the School Board:

The gradual formation of a desire to accomplish all possible by the pupils of the schools has been quite noticeable this year. This is a most encouraging sign that we are working along right lines. The child who does not look forward to promotion at the close of the school year is the exception. There are now ten pupils that are candidates for graduation. Would that there were pupils enough in the schools to graduate that number every year.

There is not much that is new to report upon this year. The introduction of drawing has taken place since the last annual meeting. The system of records of the standing of pupils and of steady examinations as they complete the important natural divisions of the course of study have been maintained fairly well this year. Examinations make extra work; yet they are the means of stimulating the children to learning lessons permanently. They are the stepping stones by which the scholars pass on to the complete accomplishment of the course of study laid out for them and spur them on to acquire the ability to study by the time they are ready to enter high schools. They promote accuracy and intensify application and are the means by which the superintendent can set the standards of work to be accomplished.

TOWN OF HOLDERNESS

On Friday, June 27, 1913, occurred the second graduation of Holderness Grammar Schools. This came at a busy season, but deserved the sacrifice of time and convenience. In connection with these exercises there was an exhibition of work done in the schools. Those citizens who viewed it expressed themselves as gratified at the progress shown by the schools. The fact that part of this exhibition was taken to the Grange Fair speaks well for what the schools did. Some of these things may seem unnecessary, but they really serve to stimulate, interest, broaden the intelligence of the pupils and produce greater care in the regular required school work. It is planned to exhibit the school work this year and it is to be hoped that other citizens may have an opportunity of seeing it.

Perplexing and troublesome problems occasionally occur as a means of grace for those that have to do with schools. We have not been utterly free from anxious thought all the year; yet, we have endeavored to solve difficulties so as to promote the best results.

Thanking the school officials for their cordial support of my plans and the teachers for their efforts to satisfy me and help increase their pupils' knowledge, I take pleasure in submitting this brief report of a year's work in the schools of Holderness.

Respectfully submitted,

John Keniston,

Superintendent of Schools.
